

# New Product Introduction

## ET 2500 Narrow Aisle Electric Tractor

Skamp Industries is proud to announce that we have developed an heavy duty 48-volt electric tow tractor. The model designation is the ET 2500. It is rated at 2500 lbs. of draw bar and pull will tow up to 50,000 lbs on wheels. It was developed for customers who want to run this type of equipment to eliminate emission problems in their applications.

### Standard Equipment

Standard equipment on the ET 1800 is:

- 48-volt/18.2 horsepower drive motor
- 650 ampere Sevcon Mofset controller
- Sealed solid state accelerator pedal
- 12-volt accessories
- Head lights and stop/tail lights
- Key switch, master disconnect switch, and combination hour meter/battery discharge indicator
- Solid pneumatic tires
- Front & rear leaf spring suspension
- Silent running chain drive in oil bath
- 10-inch heavy-duty self adjusting disk brakes on drive wheels
- Heavy duty welded one piece frame with 1" thick front bumper
- Full set of manuals; operators, parts and service manuals

SKAMP Industries, Inc.
